Eligibility Matrix (EM) Process

Key Variables That Determine General Eligibility

Needy Students:

At least 50 percent of an institution's degree-seeking students received financial assistance under: the Federal Pell Grant, Federal SEOG, or the Federal Work Study programs.

OR, the percentage of an institution's undergraduate degree-seeking students who were enrolled at least half-time and received Federal Pell Grants exceeds the median percentage of the same at similar (type and control) institutions.

Core Expenses per FTE:

Regular operational expenditures of postsecondary institutions

- Excluding auxiliary enterprises, independent operations, and hospital expenses).

These expenses are then divided by the FTE (12-month undergraduate enrollment for the academic year).

Compared to the average value for other similar (type and control) institutions.

FY26 Eligibility Thresholds for Similar Institutions

Type of Institution	Base Year 2023-2024 Median Pell Grant Percentage	Base Year 2023-2024 Average Core Expenses per FTE Student
2-year Public	44%	\$19,004
2-year Nonprofit Private	48%	\$17,453
4-year Public	37%	\$39,350
4-year Nonprofit Private	36%	\$50,027
